

# ADVANCED IMAGE EDITING WITH PHOTOSHOP ELEMENTS

**Date: JULY 24– 25, 2008**  
**1:00 to 4:00**

**Location: TLC**

Participants will work with advanced tools available in PhotoShop Elements to create images that will enhance the learning experiences for their students. You can work on special projects to create digital images that inspire your students to learn. Bring in your own photos to create motivational posters or to create documents that support your curriculum.

**Prerequisites:** Basic Computer Skills, but the stronger your computer skills, the more you will learn. Experience with PhotoShop Elements is required.

**Instructor: Pam Hopkins [PamH@susd12.org](mailto:PamH@susd12.org)**
