

Date: JULY 21– 23, 2008
9:00 to 12:00

Location: TLC

Learn how to take pictures with a digital camera. Participants will work with their own digital cameras to learn about the camera's settings, taking pictures, battery management, uploading photos to a computer, media management and other technical aspects of using the latest digital cameras.

This workshop will focus on the camera itself. Participants may also want to take the Basic Image Editing with PhotoShop Elements Workshop offered July 21-23 from 1:00 to 4:00.

Day 1: How to use your camera — Bring your camera and manual, if available. Cameras will not be provided.

Day 2: Zoofari Photo Shoot — We will go to the zoo to take photos. Small fee may be required at the zoo.

Day 3: Uploading and basic editing of images.

Prerequisite: Basic Computer Skills

Instructor: Pam Hopkins PamH@susd12.org
