

USING PHOTOSTORY III IN THE CLASSROOM

Date: JULY 24–25, 2008
9:00 to 12:00

Location: TLC

Create slideshows using your digital photos. With a single click, you can touch-up, crop, or rotate pictures. Add stunning special effects, soundtracks, and your own voice narration to your photo stories. Then, personalize them with titles and captions. Small file sizes make it easy to send your photo stories in an e-mail. Watch them on your TV, a computer, or a Windows Mobile–based portable device. Participants will learn how to work with students as they turn their photos into movies using this free software.

Prerequisites: Basic Computer Skills

Instructor: Pam Hopkins PamH@susd12.org
